## NOTICE TO NATURAL GAS CONSUMERS

U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Pipeline Safety Regulations §192.16 Requires natural gas pipeline operators to notify customers responsibility dealing with private yard service lines.

Our utility does not maintain service lines beyond the meter. Those lines belong to the property owner. You are hereby notified, as required by law, that:

- (1) Tuttle Public Works Authority does not maintain the customer's buried piping.
- (2) If the customer's buried piping is not maintained, it may be subject to the potential hazards of corrosion and leakage.
- (3) Buried gas piping should be periodically inspected for leaks, periodically inspected for corrosion if the piping is metallic, and repaired if any unsafe condition is discovered.
- (4) When excavating near buried gas piping, the customer is responsible for locating the private gas piping in advance, and the excavation done by hand.
- (5) Plumbers and/or heating contractors may be able to assist consumers in locating, inspecting, and repairing buried piping.

It is the policy of the TUTTLE PUBLIC WORKS AUTHORITY to provide the best possible natural gas delivery service: however, we cannot under law, take ownership of or repair customer owned yard lines. If, however, you have an emergency or leak, do not hesitate to contact this office for assistance. Our telephone # is (405) 381-2335 from 8:00 a.m. to 5:00 p.m. Monday through Friday and (405) 381-4467 after hours and on weekends or holidays.
